### Energy Literacy Training Week

Energy is the main culprit of 'climate change' because more than 80% of what we use comes from Coal, Oil and Gas. It is important to know the basics about energy usage and its negative impact on the environment. **Energy Literacy is like a license to use energy.**

Energy Literacy Training course is designed to provide comprehensive knowledge about energy sources, consumption patterns, and sustainable practices. By completing this course, Students will not only gain valuable insights into the world of energy but also play a vital role in creating a more environmentally conscious future. **There are E-certificates after completion of the program.**

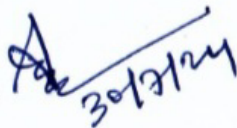

So, all the students of Technique Polytechnic Institute are hereby instructed to complete this program within **3/8/2024** to make it 100% Energy Literate.
